**We are here to help you with the process. Please understand that financial aid is a grant from the school and with the aid come the following obligations:**

1. Each family's financial circumstances vary and, therefore, just as we maintain confidentiality we request that families do the same about their awards.
2. Tuition assistance will be allocated to returning students only if their financial obligations to the School are current.
3. Families who are denied financial aid or who have questions about their grant may appeal once, in writing, to the Financial Aid Office of the school, including details that may not have been included in the application and providing supporting documentation of these issues. An appeal must be made prior to the signing of the enrollment contract. **Families who have not met the deadlines waive their right to appeal.**
4. Both parents are expected to utilize personal resources beyond their combined salaries, when possible. Families who accept financial aid should prioritize the cost of education above other discretionary expenditures.
5. If it comes to our attention that the financial information provided is false, we will be forced to withdraw all aid.

**I/we have read and understand The Ethical Culture Fieldston School's guidelines for financial aid and agree to accept them as a prerequisite for applying for aid from the School.**
